展覽概述

在我們的青蔥歲月裡，課堂外的時光總會有不少難忘的成長經歷，為我們留下段段說不完的故事，既遙遠又珍貴。當我們回憶起其中的點點滴滴，感覺仍是那麼的親切、甜蜜，仿如昨日。哪些片段會令你難忘：是那場精彩刺激的籃球比賽？那次師生同樂的郊遊？還是那份簡單純樸的同窗情誼？

說起課餘生活，隨著社會環境不斷變遷，不同年代的課外活動，無論種類、形式，亦各有特色、各異其趣，為每一代人帶來不一樣的感受，更可作為時代與歷史的見證。昔日學校旅行和畢業營的清幽地點，如今不少已變成繁華鬧市，高樓林立；而那些年流行的經典童玩，例如：跳橡筋繩、拍公仔紙、彈波子、踢西瓜波等，亦已成明日黃花。

課外活動是學校課程的重要元素，在學校教育與學生成長上，一直扮演舉足輕重的角色。從課程角度而言，我們也許要考慮課外活動的目的：是為了延伸課程學習的經歷？還是因應學生興趣，提供閒暇或學習活動？香港課外活動在過去一個世紀，從萌芽階段，走進茁壯成長之路；從泛指學生課餘時間的閒暇活動，蛻變為配合全方位學習，讓學生體驗課堂內外的多元化學習經歷，打破正規與非正規課程分野。隨著時代演進及教育變革，課外活動肩承了新的理念和使命，繼續為莘莘學子提供培養興趣、啟發潛能、個性發展及自我成長的空間。

香港教育博物館與香港課外活動主任協會聯合籌辦「課堂外的學生歲月」展覽，以課外活動為主題，嘗試呈現課外活動於香港逾百年教育脈絡上的發展與演進，希望藉此喚起跨越世代的回憶與共鳴。不同年代的課餘經歷，正好扣連每個世代間相近的夢想與情懷，讓彼此分享及回味各自的童年歲月，以促進跨世代的了解、達至長幼共融，並為未來課外活動在教育定位和發展作出反思。

INTRODUCTION

As children, the time we spent outside the classroom was unforgettable, giving us countless stories to tell and experiences to reminisce about. Today, our youth seems to belong to the distant past. Yet we may feel a sense of familiarity, intimacy and sweetness when such moments cross our minds, as if they had happened just yesterday. What is your most cherished memory of those times? Is it a high-spirited basketball match? Or a fascinating trip to the countryside with your classmates and teachers? Perhaps what you treasure most are the genuine friendships formed during your school days.

Over the years, after-school activities have evolved as society has developed. At each point in history, extra-curricular opportunities have had their own unique features. Every generation of students has experienced different things and formed distinctive memories, which bear witness to history. In Hong Kong, many of the tranquil scenic spots for school trips or graduation camps in the old days have been replaced with skyscrapers amidst the hustle and bustle of the city. Only a few people today remember long-ago childhood games such as rope skipping, portrait picture cards, marbles and 'watermelon' ball.

Extra-curricular activities, an integral part of the school curriculum, play an important role in students' education and personal growth. Perhaps we should think about the objective of these activities from the curriculum perspective: whether they are designed merely as an extension of classroom learning or to cater to students' interests by providing opportunities for learning through leisure. In the past century, extra-curricular activities have flourished in Hong Kong. Once considered simply a form of recreation, extra-curricular activities now offer a diverse blend of formal and informal learning experiences in support of holistic education. In response to social changes and education reform, new educational principles and objectives have been developed for extra-curricular activities, creating opportunities for students to nurture their interests, explore their potential and develop their talents.

Jointly organised by the Hong Kong Museum of Education and the Hong Kong Extra-curricular Activities Masters' Association, this exhibition, *Beyond the Classroom: Extra-curricular Activities*, delves into the development and evolution of extra-curricular activities in Hong Kong over the last century. Presenting a rich variety of learning activities outside the classroom, it explores the experiences shared by students of all ages. This collection of memories, spanning the generations, has one thing in common: our youthful days are brightened by dreams and delight. Sharing these moments and achievements from our school days, the exhibition offers a glimpse into students' lives at different points in history. It seeks to foster intergenerational understanding and inspire viewers to reflect on the importance of extra-curricular activities to education, then, now and in the future.
